

# Chocolate Flavored GRAHAM CRACKERS

IdaPro® MPC-80 together with IdaPro® MPP provide a delicious protein-packed cracker

Our IdaPro® Milk Protein Concentrate (MPC-80) makes graham crackers a convenient, healthy, and delicious snack that provides increased protein intake to busy active consumers. By adding our IdaPro® Milk Permeate Powder (MPP), the crackers turn out crispier with a slight milky flavor.

Our vertically integrated business model facilitates the creation of the freshest and cleanest flavored proteins, with superior texture for snack manufacturers. An advanced filtration, low-heat process ensures that our MPC-80 remains highly nutritional and functional for a variety of applications.

The versatility of MPP in baking applications opens the door to creativity. In most cases, it can be used in place of skim milk powder, whey permeate powders or lactose. Its low affinity for moisture, near neutral pH and clean, mild, sweet milky flavor and aroma make it excellent for baked products. It provides cost savings and browning for low sodium and other food applications. Also, MPP can add some sweetness to your product without being counted towards Added Sugars on the Nutrition Facts panel.
